Dear Sir:

This is in response to the Examiner's Interview Summary dated August 26, 2009, and confirms that the paper accurately describes the substance of the Interview in which Applicants' representatives discussed the rejections of record and the nature of the claimed invention. Also discussed were further amendments to the claims which would better distinguish the subject matter considered by applicants to be their invention from the disclosures of the prior art.

Dated: September 28, 2009

Respectfully submitted,

By
